1. PROFESSIONAL SUMMARY

Security-focused computer science student with hands in ethical hacking labs, web development and creative UI projects. Adept at identifying system vulnerabilities and implementing secure design practices. Eager to contribute to cyber defense initiatives while applying creative and technical web design skills.

2. SKILLS

Web development

-HTML: Strong understanding of structure and semantics.

-CSS: Basic styling and layout skills.

-Problem solving: Clear written and verbal skills.

Graphics and design

-Adobe photoshop

3. PROJECT

Personal Portfolio: Designed and developed a responsive portfolio showcasing projects. Used HTML, CSS and JAVASCRIPT.

4. EDUCATION

I had my GCE Ordinary and GCE Advanced Level in GBHS Bonaberi. And I'm about to have my HND.
